

Teachers' meeting in Landskrona 26.09.-30.09.2014

As a preparation for the discussions about teaching at the meeting...

Please think about the following aspects:

Teaching methods

Explaining or lecturing

Explaining, or lecturing, is the process of teaching by giving spoken explanations of the subject that is to be learned. Lecturing is often accompanied by visual aids to help students visualize an object or problem

Demonstration

Demonstrating is the process of teaching through examples or experiments. For example, a science teacher may teach an idea by performing an experiment for students. A demonstration may be used to prove a fact through a combination of visual evidence and associated reasoning

Collaboration / Active Learning

Collaboration allows students to actively participate in the learning process by talking with each other and listening to other points of view. Examples: Group projects, group work, class discussions, cooperative learning (e.g. think-pair-share), student debate, reaction to a video, class game, ...

Learning by teaching

In this teaching method, students assume the role of teacher and teach their peers. Students who teach others as a group or as individuals must study and understand a topic well enough to teach it to their peers.

Testing

Written tests, e.g. essays, question-answer, multiple choice, ...

Oral Tests

Standardized or non-standardized tests

Test developed by individual teacher or by teachers' teams or by educational agency

Frequency of tests

What is the aim of testing: feedback, selection, ...

Teachers' meeting in Landskrona 26.09.-30.09.2014

Influence of the students on teaching and testing

Teaching:

Influence on contents and methods

Who decides if students have an influence on teaching? Institutional requirements or individual teachers' decisions, or...

Testing:

Influence on the form of testing, on the date, on the content

Who decides if students have an influence on testing? Institutional requirements or individual teachers' decisions, or...

Which competences will the teaching methods and the forms of testing create?

Differentiated learning, Differentiation, providing different students with different avenues to learning
